The '*Norman Album*' of images from the life of Julia Margaret Cameron

On 17 July 2013 the Reviewing Committee considered an application to export The '*Norman Album*' of images from the life of Julia Margaret Cameron, dating from 1869 and measuring 45.9 by 31.4 cm. The album contains 75 photographs taken between 1864 and 1869. The Committee concluded that the album satisfied all three Waverley criteria. The application for an export licence was subsequently withdrawn. Consequently, no decision on the application has been made by the Secretary of State.
